TERMINAL DISCLAIMER

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

Petitioner, Endologix, Inc., a Delaware corporation, certifies that it is the assignee and sole owner of the entire right, title and interest in the patent application identified above by virtue of an assignment from the inventor. Petitioner also certifies that it is the assignee and sole owner of the entire right, title and interest in U.S. Patent No. 6,660,030 (the '030 patent), by virtue of an assignment from the inventor. A copy of the assignment of both the present application and the '030 patent is recorded at Reel/Frame: 011586/0265.

Pursuant to 37 C.F.R. 1.321(b), Petitioner hereby disclaims the terminal part of any patent granted on the above-captioned application that would extend beyond the expiration date of the full statutory term of the '030 patent. Petitioner hereby agrees that a patent so granted on the above-captioned application will be enforceable only for and during such period that the legal title to the patent shall be the same as the legal title to the '030 patent. This agreement extends to the patent granted on the above-captioned application and will be binding on Petitioner's successors and assigns.

Petitioner does not disclaim any terminal part of a patent granted on the above-captioned application before the expiration date of the full statutory term of the '030 patent, in the event that

Appl. No. : 10/675,060
Filed : September 30, 2003

the '030 patent later: expires for failure to pay maintenance fees; is held unenforceable; is found invalid; is statutorily disclaimed in whole or terminally disclaimed under C.F.R. § 1.321(a); has all claims canceled by a reexamination certificate; is reissued; or is in any manner terminated prior to the expiration of its full statutory term.

The undersigned representative verifies that he is authorized to take this action on behalf of the Petitioner.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
